

# It is all about you.

Finding the right fit in a college - the college at which you will thrive and reach your academic and personal potential, the college that will best prepare you for success - is one of the most important decisions you will make. • Finding the right fit is all about you. It's about who you are and what matters to you. It's about your dreams and expectations - of yourself and your college experience, both in and out of the classroom. • Women's colleges are dedicated to giving you not only *some* opportunities, but *every* opportunity. At women's colleges, all of the resources - from top faculty and sophisticated research equipment to athletic facilities, from leadership, internship, community service and study abroad opportunities to fellowship funding - are focused on you. And a women's college education proves its value over a lifetime by developing the critical skills necessary for success in graduate school, in your career, and in your community.

**Women's colleges. We are all about you.**
